A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Kumar (US 5,294,782).

Regarding claim 1, Kumar discloses a handheld mobile image-sensing device that comprised a support structure; an image sensor positioned on the support structure for sensing an image; a display positioned on the support structure and operatively connected to the image sensor for displaying the image sensed by the image sensor; a printing mechanism that is positioned on the support structure and operatively connected to the image sensor to print the image sensed by the image sensor; and a remote transmission arrangement positioned on the support structure and operatively connected to the image sensor to transmit data representing the image (Col 4 Lines 15-60; Figs 1;6).
